

SUNIKHIL THAKUR

Computer Science Student

☎ (+91) 9882174438 | ✉ thakursunikhil@gmail.com | [LinkedIn Profile](#)

EDUCATION

Bachelor of Engineering in Computer Science | *CGPA: 8.91/10*

Chitkara University | *Aug 2021 - Aug 2025*

Secondary Education | CBSE Board

Shanti International Sr. Sec. Public School | Completed 2021

PROFESSIONAL EXPERIENCE

Software Developer | *Stalwart Integrals*

- Completed intensive MERN stack training (MongoDB, Express.js, React.js, Node.js, Flask)
- Developed and deployed multiple full-stack applications applying industry-standard practices
- Implemented RESTful APIs and optimized database queries for improved application performance
- Collaborated in agile team environments using Git/GitHub workflows for version control
- Strengthened expertise in JavaScript, Data Structures & Algorithms, and API design patterns

TECHNICAL PROJECTS

Blog Management System | *MongoDB • Express.js • Node.js • Socket.io • Nodemailer*

- Architected scalable backend infrastructure supporting real-time communication via Socket.io
- Implemented role-based authentication system with admin privileges using JWT tokens
- Developed automated email notification system using Nodemailer for enhanced user engagement
- Designed RESTful API endpoints handling CRUD operations for blog posts and user management

House Rental Platform | *MERN Stack • Real-time Booking System*

- Built comprehensive rental marketplace connecting property owners with prospective tenants
- Engineered booking panel with calendar integration for seamless date selection and reservation
- Created detailed property listing system with search filters and personalized user profiles
- Optimized database schema for efficient querying of property listings and user data

Online Bookstore | *React.js • Tailwind CSS • Express.js • MongoDB*

- Developed responsive e-commerce platform with intuitive UI using React.js and Tailwind CSS
- Implemented robust backend architecture handling inventory management, user authentication, and order processing
- Integrated payment gateway simulation and shopping cart functionality
- Optimized application performance ensuring smooth user experience across all devices

AI-Powered Meeting Summarizer | *MERN Stack • GROQ API • SMTP Integration*

- Built intelligent web application leveraging GROQ AI API to generate concise meeting summaries

- Implemented transcript upload functionality supporting multiple file formats
- Developed editable summary interface with custom instruction capabilities
- Integrated SMTP email service enabling one-click summary distribution to stakeholders

TECHNICAL SKILLS

Programming Languages: Java, C++, JavaScript, Python, SQL

Frontend Technologies: React.js, HTML5, CSS3, Tailwind CSS

Backend Technologies: Node.js, Express.js, Flask

Databases: MongoDB, MySQL

Tools & Technologies: Git, GitHub, VS Code, IntelliJ IDEA, Socket.io, REST APIs

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, Agile Development

KEY STRENGTHS

- Full-stack development with MERN stack expertise
- RESTful API design and implementation
- Real-time communication systems (Socket.io)
- Database design and optimization
- Version control and collaborative development
- Problem-solving using DSA principles
